

August Update

MEINHARDT IN FOCUS

Despite a flat property and construction market in Myanmar, Meinhardt Myanmar remains active with our current projects in Yangon and elsewhere. Our long-term outlook remains positive.

Meinhardt Myanmar has recently **celebrated its 7th year of operations** with attendance by monks for blessings at our Yangon office. John Anderson, Managing Director and John Pollard, Group Regional CEO - South Asia attended the ceremony together with the Yangon office staff.

*“The Yangon office has achieved a lot in 7 short years. **With its 50 very capable staff we are able to deliver world class engineering design and Project & Construction Management services**”*

*John Anderson
Managing Director, Meinhardt Myanmar*

PROJECT IN FOCUS

Meinhardt strives to be a socially responsible company by giving something back to the community, especially those less fortunate than ourselves. What better way of making a positive impact than by donating our engineering design expertise. This is what Meinhardt Myanmar have done for this month’s featured project, **the New Oncology Centre at North Okkalapa General Hospital, Yangon.**

This Myanmar government hospital project consists of a 7 storey with 1 basement building of 16,000 sq.m. The hospital features radiotherapy, nuclear medicine and medical & radiation oncology facilities for 300 beds. This New Oncology Centre is expected to be completed in 2022.

“We are delighted to be providing our **Civil & Structural and MEP engineering design and consulting support for this project as part of our Corporate Social Responsibility (CSR) program.** More than 500 hours of engineering time have been donated and more than 220 drawings produced. Special thanks to Executive Mechanical Engineer, Soe Naing Win, for leading this effort.”

*John S. Anderson
Managing Director, Meinhardt Myanmar*

“Thank you for your exceptional contribution for free Civil and Structural and MEP engineering design of our oncology unit construction plan. The event was a great effort because of the hard work and attention to detail this team exhibited. Your teamwork resulted in an immensely successful event for our future expansion. Thank you again for exemplifying the values of our hospital and country.”

*Dr. Kyi Soe
Senior Medical Superintendent
North Okkalapa General and Teaching Hospital*

STAFF IN FOCUS

This month we feature **Nguwar Hlaing**, our Senior Sanitary Engineer who joined Meinhardt Myanmar in 2015. With a Bachelor of Mechanical Engineering (Hons) from Yangon Technological University, Nguwar decided to pursue her career as a Sanitary Engineer at Meinhardt. She has 8 years of experience in the design of various types of buildings, including high-rise, residential, commercial and industrial projects.

“I am very grateful for the opportunity Meinhardt has given me to discover my hidden talent and gain experience in the industry.”

*Nguwar Hlaing
Senior Sanitary Engineering*

FACT IN FOCUS

Did you know that: **Meinhardt has been ranked 46th in the 2019 ‘Top 225 International Design Firms’** by the Engineering News-Record (ENR1) - the world’s leading authority in engineering and construction related news. In its latest annual ranking, Meinhardt moved several notches up from 52 in 2018. On the ‘Top 225 International Design Firms’ list, firms are ranked based on design revenue from projects outside of their home countries, measuring their presence in international commerce. **Meinhardt is ranked 15th globally amongst firms which specialize in engineering services** and continues to retain its top spot as the largest independent privately held engineering firm in Asia.
